from Katie.

Aug. '83.

Notice.

There are now two Editions published:—

I. *The copies in cloth containing seventy-six blanks of Twenty-three questions each, called, on account of the comparative brevity of the Mental Photograph, the "Carte-de-Visite" edition. This edition will be generally preferred by those to whom the Album is a comparative novelty.*

II. *The copies in cloth containing thirty-eight blanks of forty questions each, called, because each "Mental Photograph" is of fuller dimensions than those of the other edition, the "Imperial edition." This edition will be preferred by those already fond of the amusement.*

In ordering, please state the edition wanted. The sizes and prices are the same.

STYLES AND PRICES AS FOLLOWS:

Cloth, gilt, - - - - - - - - - -	$1 50

Preface.

This Book is intended to serve as a record for the tastes and characteristics of friends; in short, for their mental photographs, just as another class of Albums serves to keep their physical ones.

The set of questions on which the system is founded, has long been the favorite diversion of a small circle of friends, to whom this brief preface will recall many a pleasant hour. Very naturally, a mental photograph book was ultimately formed, in which both questions and answers were written, and every one giving a mental photograph was required to give also a carte de visite for the ordinary photograph book, so that as complete a portrait as possible, both of the inner and outer man, was obtained. In the present volume, better facilities for combining the two elements are furnished, and many new questions have, of course, been added to those previously in use. It is needless to say, that the questions can be multiplied ad infinitum, and that the answers can be made in jest or earnest, as best suits the mind and manner of the sitter. Examples of both modes of reply are given on a subsequent page, taken from the editor's book of "mental photographs."

Another very amusing way of using the questions, is to write down the photograph of an absent friend, or rather, what we suppose it to be, and then obtain the real answers, and compare them with those previously given. I remember two instances of this kind, in which, out of thirty answers, only one was wrong

Of course, even a slight examination of these questions will make it evident that they are intended rather to form a key to the tastes than to the characters of those who use them conscientiously; but nevertheless, however used, they are apt to give some idea of character. When (to quote instances already notorious) Napoleon III. replied to the question, "Who would you like to be?" that he would gladly be his own grandson if it were possible, we know that the answer is a humbug, and that he knows it to be so, but is it not thoroughly characteristic of the man? And when the Prince of Wales asserts with charming impudence, that his "favorite occupation" is improving his mind, we know that the reply is a piece of impertinent mockery, but is it not characteristic of the manner in which that serious and admirable young man throws impertinence and defiance in the teeth of the respectable and fastidious John Bull?

We are not claiming too much for these questions in a psychological point of view, when we assert, that if seriously and thoughtfully treated, they will lead to very interesting psychological researches; nor, on the other hand, that if treated as a mere jest and pastime, they will prove an endless source of amusement.

For the sake of variety and completeness, more questions have been given in this Album than it will ordinarily be found practicable to take time to answer. Each person should make a selection according to taste. To attempt to answer all may be sometimes found more tedious than entertaining.

PLACE FOR PHOTOGRAPH.

TAKE an ordinary *carte de visite*, and soak it in cold water for about three hours. The thin paper on which the photograph is printed will peel off from the card without being injured. Let the portrait paper dry, trim it to the necessary size, and paste it in this place, very lightly, by the corners, and one or two spots on the side. Let the book be under pressure till the paste dries. The *light* pasting and pressure are necessary to prevent warping.

This method is preferable to the use of the entire *carte de visite*, as a book suitable for holding the heavy cards without warping, would be very cumbrous.

PLACE FOR PHOTOGRAPH.

TAKE an ordinary *carte de visite*, and soak it in cold water for about three hours The thin paper on which the photograph is printed will peel off from the card without being injured. Let the portrait paper dry, trim it to the necessary size, and paste it in this place, very lightly, by the corners, and one or two spots on the side. Let the book be under pressure till the paste dries. The *light* pasting and pressure are necessary to prevent warping.

This method is preferable to the use of the entire *carte de visite*, as a book suitable for holding the heavy cards without warping, would be very cumbrous.

PLACE FOR PHOTOGRAPH.

TAKE an ordinary *carte de visite*, and soak it in cold water for about three hours. The thin paper on which the photograph is printed will peel off from the card without being injured. Let the portrait paper dry, trim it to the necessary size, and paste it in this place, very lightly, by the corners, and one or two spots on the side. Let the book be under pressure till the paste dries. The *light* pasting and pressure are necessary to prevent warping.

This method is preferable to the use of the entire *carte de visite*, as a book suitable for holding the heavy cards without warping, would be very cumbrous.

PLACE FOR PHOTOGRAPH.

TAKE an ordinary *carte de visite*, and soak it in cold water for about three hours. The thin paper on which the photograph is printed will peel off from the card without being injured. Let the portrait paper dry, trim it to the necessary size, and paste it in this place, very lightly, by the corners, and one or two spots on the side. Let the book be under pressure till the paste dries. The *light* pasting and pressure are necessary to prevent warping.

This method is preferable to the use of the entire *carte de visite*, as a book suitable for holding the heavy cards without warping, would be very cumbrous.
